NEW YORK, October 20. STOCK MARKET speculation at the first open boars weak on Erie, but the bulance of t opened rather weak on Eric, but the balance of the mirket was steady and prices generally better a compared with the lowest point of last seeming. A large business was done in all the leading stocks. The sales footed up 10,000 shares. The Bears have The sales leaded up 10,000 shares. The Bears have largely tucrused their fine of shorts, principally on thirty days options. The Bulls, or the other nand, have courage enough to put out a fair fine of buyers' actions in hopes of being able to make profit out of the covaring of contracts being out by ouyers. The market was active throughout the MONEY WARREST.

MONEY MARKET.

The stringency in the money market continues.
There is pressing demand for short loans in many cases, irrespective of the rates. 7 per cent. is the ruling rate, but large prices very frequently are paid.

Government securities are flowing freely into the market from parties pressed for currency, and in part from banks anxious to keep up their legal in part from banks anxious to keep up their lega-tenders.

Large amounts of Seven-Thirfies are now arriv-ing from the West, producing a still further de-cline in prices. The second and third series of the seven-Thirfies soli at \$77₂.

Ten-Forties have declined \$4c.

Fire-Twentes, now issue, have also declined \$4c.

The prevailing feeling in all government securities was weak.

Go d has been quiet all the afternoon at 140348 PETROLEUM STOCKS. There was little activity in petroleum stocks t
